TURNOVER

Our presence

Established in 2010

As an alliance of consulting companies in Estonia, Latvia and Lithuania.

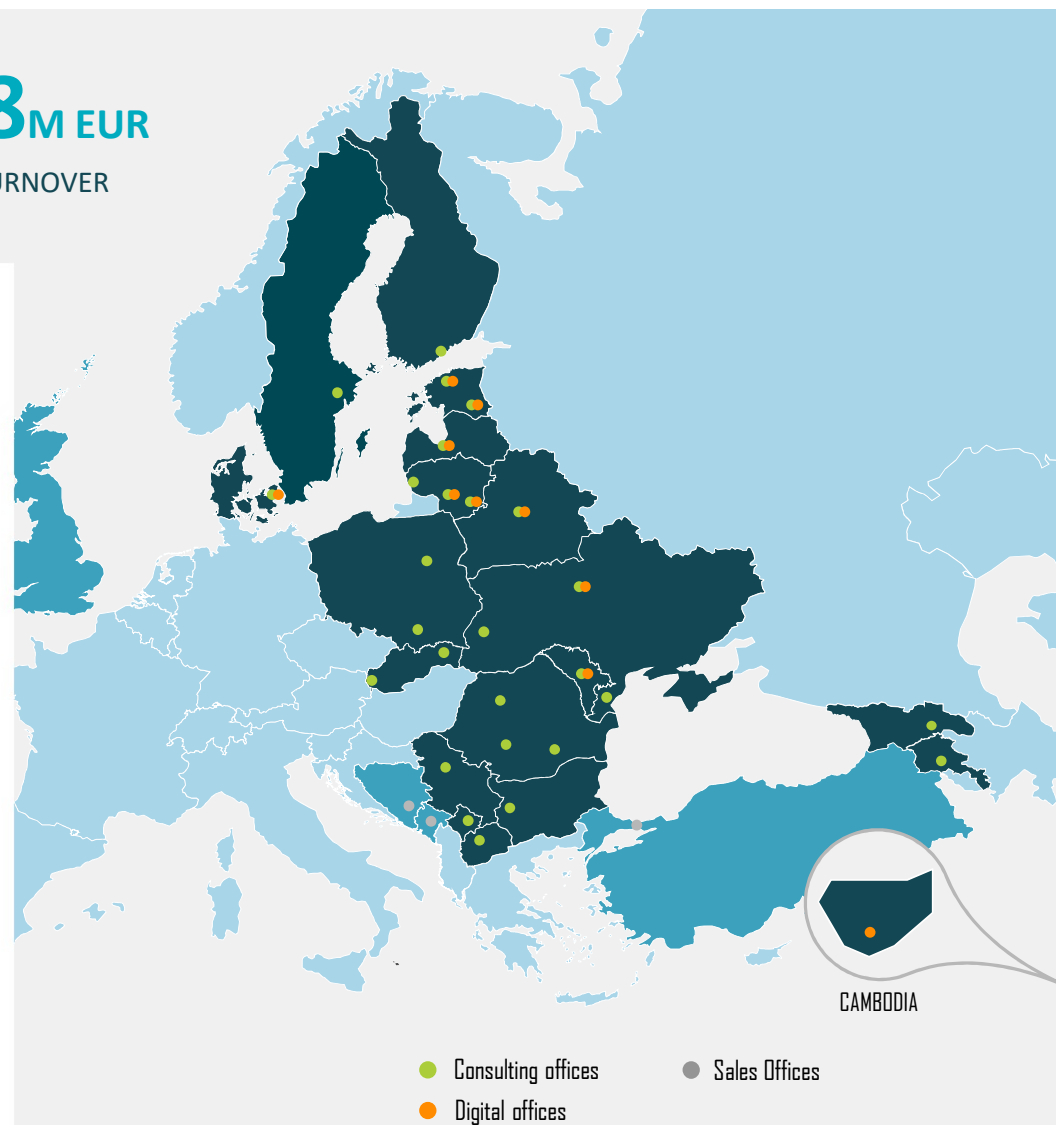

Distinguished #1 advisory brand originated in CEE

We exported our Challenger business model

And we are now present in 19 countries, with focus on Central/Eastern Europe and Nordics.

We follow a "one company principle"

Our multiple offices not only share the same infrastructure, but also the same culture.

“What is the network of European Digital Innovation Hubs?”

“What are the opportunities for digital transformation & its funding through EDIH network?”

“How an EDIH can help you?”

GOALS

What is an EDIH ("ECDI")?

one-stop shop supporting companies to respond to digital challenges and become more competitive

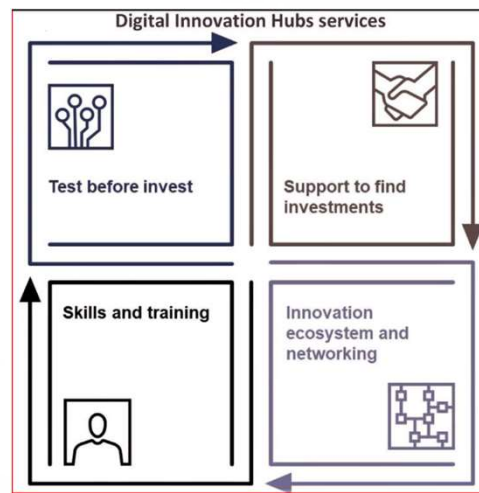

Each EDIH will:

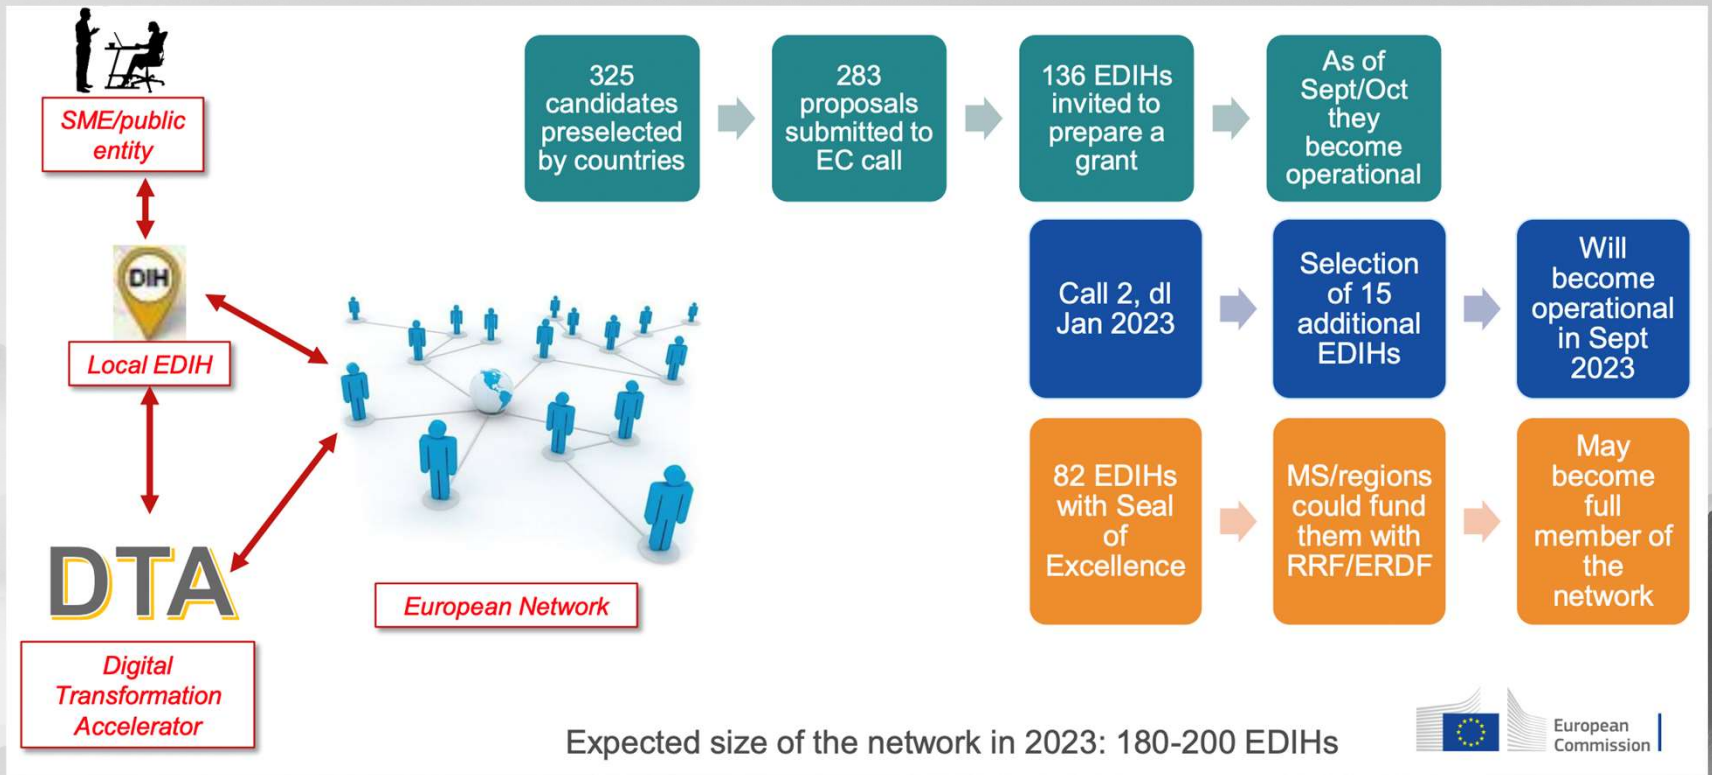

- provide access to technical expertise and testing, the possibility to 'test before invest',
- support companies to improve business/production processes, products, or services using digital technologies,
- provide innovation services, such as financing advice, training, and skills development that are central to successful digital transformation.

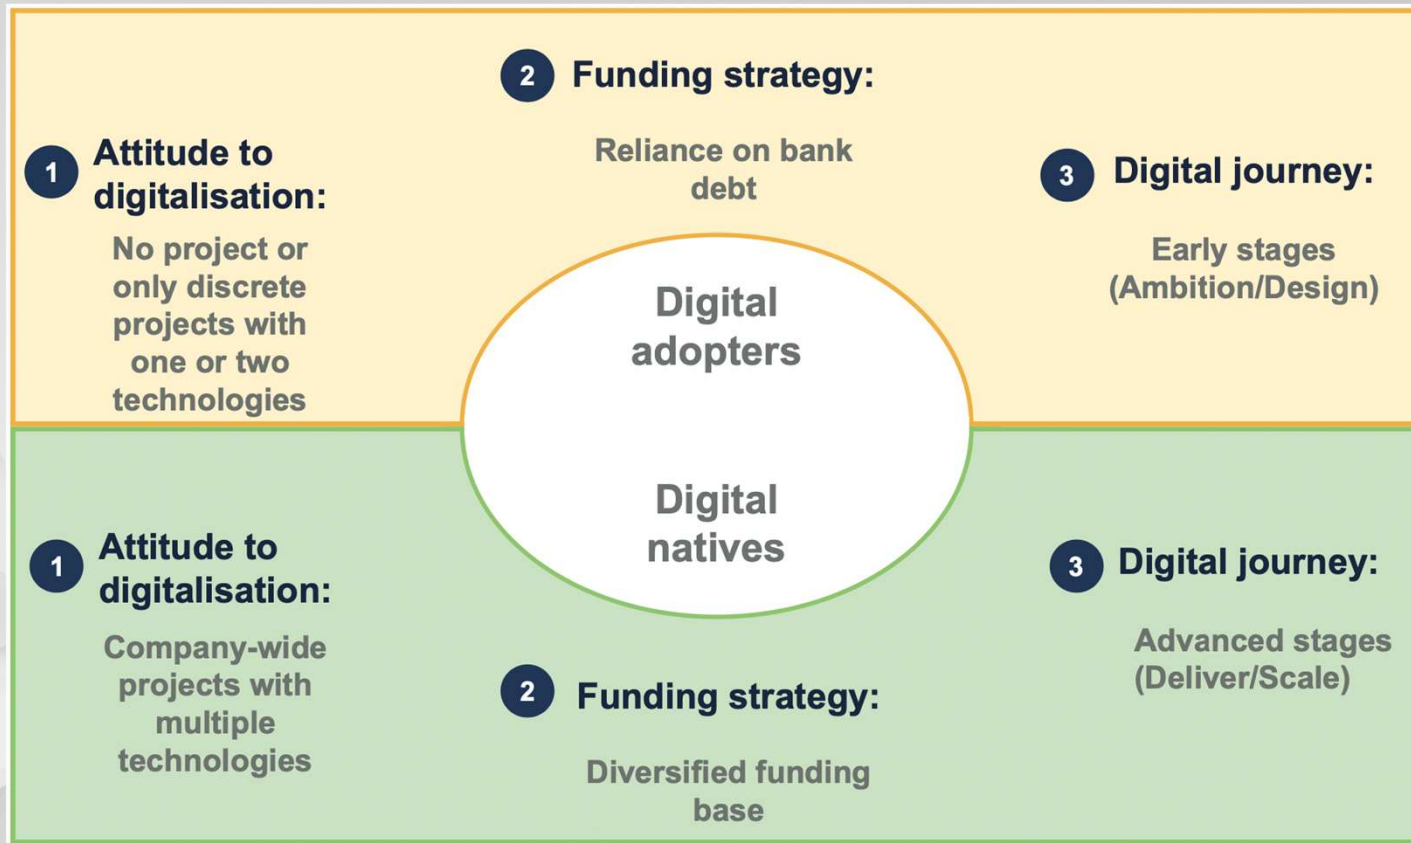

What is an EDIH ("ECDI")?

one-stop shop supporting companies to respond to digital challenges and become more competitive

A man wearing a VR headset is shown from the chest up, smiling. He is wearing a denim shirt over a white t-shirt. His right hand is raised, palm facing up. In the background, a parachute jumper is visible against a light sky. The image is overlaid with a large, stylized 'V' shape in teal and grey. The text 'HOW AN EDIH CAN HELP YOU?' is written in teal capital letters on the left side of the image.

HOW AN EDIH CAN
HELP YOU?

HOPERO EDIH

"We upgrade companies and their people for the digital era by strengthening and expanding the community of innovators, sharing knowledge, improving access to funds and adopting artificial intelligence."

- providing R&D excellence and practical experiences with AI adoption
- providing access to unique testing infrastructure and practical experiences in digital training
- providing international expertise related to access to funding, innovation advisory and startup support
- providing access to the innovation ecosystem and existing tools to develop it

HOPERO EDIH

"We upgrade companies and their people for the digital era by strengthening and expanding the community of innovators, sharing knowledge, improving access to funds and adopting artificial intelligence."

HOPERO is dedicated to **3 main goals**:

- (1) promotion of digital technologies related to artificial intelligence (AI) in all its aspects,
- (2) supporting the SMEs in access to private and EU funding necessary for adoption of all digital technologies, focusing specifically on SMEs in the regions, and
- (3) development of digital innovation ecosystem.

What are the opportunities for digital transformation & its funding through EDIH network?

According to the European Commission:

The EDIH network is expected to boost the capacities of SMEs and public sectors in integrating digital technologies in their products and services

The ambition is that every region in the EU will have at least one EDIH to help in the digital transition of the region and to act as a major player of the regional innovation ecosystem, including the implementation of Smart Specialization Strategies
